

Please reconsider the new broadcast service known as (LPFM) I am a listener to K-Love Radio which serves the Norfolk, VA. area on 90.7 FM. If this new service is implemented, I may not be able to pick up the K-Love air signal. K-Love Radio plays contemporary Christian music and would be missed by many in the Tidewater area. K-Love provides our community with positive and encouraging music on a daily basis, something that each of us needs to help get through life.
